

<p>Free Standing Leg Rest</p>							
	<p>Rohde & Grahl's free standing leg rest is fully adjustable in height and angle. Much like an office chair the leg rest adjusts in height using a gas lift. This can be changed for higher or lower models if necessary.</p> <p>The leg rest upholstery is contoured from under the knee area down. This ensures that the leg is kept in place and doesn't move off of the supportive cushioned area.</p> <p>Angle adjustment ensures that you are able to set the level of the leg rest for optimum comfort and support. Additional adjustment under the thigh area prevents undue pressure occurring.</p>
