

Xilium

■ **Xilium - Our latest Michael Ballendat ergonomic masterpiece**

Xilium is the latest and most up to date of our seating ranges. The designer of the hugely popular Xenium® chairs has been at it again.

A fine blend of ergonomics and design are the foundations on which Xilium is built. The clean design and intelligent flexibility make Xilium the perfect partner for all office functions.

- 410mm - 550mm seat height
- Polished Aluminium base
- WHITE Edition - Frame and shells in white

Xilium

New for Xilium seating

XD- Highly engineered armrests with true stepless multi-directional adjustment, finished in the finest materials.

Offering a huge adjustment range the XD armrest has been designed to cater for the most petit of individuals all the way up to those with a larger physique and measurements.

Highly polished arm frames and detailing give the XD an executive finish and are a perfect partner for Xilium seating.

X-Move is a new optional feature designed for and available on all Xilium chair models. It offers an added dimension of lateral flexibility, often missing from chairs with a conventional backrest.

Couple this movement with an already supportive DuoBack backrest however and the combined flexibility is quite simply outstanding.

Standard Measurements

- Seat Height : 460mm - 600mm
- Seat Width : 450mm
- Seat Depth : 380mm - 500mm
- Back Height : 580mm - 680mm
- Back Width : 460mm
- Seat - Lumbar : 170mm - 290mm
- Seat - Elbow : 170mm - 260mm (30 Armrests)
- Elbow - Elbow : 360mm - 620mm (30 Armrests)
- Seat - Neck* : 700mm - 880mm

* If fitted with a neck rest. Measurement range is achieved when the neck rest is adjusted in combination with the height adjustment of the back rest. The measurement is from the seat to the centre of the neck rest cushion.
